

# Avenues in Research Advocacy

asmr

Australian Society for Medical Research

Public, Political, Scientific Advocacy

Join us for a webinar where our four speakers from across the health and medical research landscape will help you understand:

- How you can help **improve and support** the HMR sector in Australia
- How **R&D policy** is developed, and how you might contribute to the process through **advocacy**

Prof. Caroline McMillen AO

Chief Scientist of South Australia

Prof. McMillen commenced as the SA Chief Scientist in 2018. She is committed to building collaborations between research, government and industry to deliver economic, environmental and social impact. She will discuss how her Office develops programs and policy to support the SA research community.

Dr Ryan Davis

President, Australian Society for Medical Research

Dr Davis became the ASMR President in 2020. The ASMR is the peak professional society representing Australian health and medical research. Dr Davis will discuss how the ASMR develops its policy positions and campaigns.

A/Prof. Gillian Caughey

Associate Director, Registry of Senior Australians

A/Prof Caughey is a pharmacoepidemiologist who uses large population-based datasets to evaluate how medicine and health service utilisation affects health outcomes for Australia's older population. She will discuss how this research can influence health policy.

Dr Kristina Elvidge

Head of Research, Childhood Dementia Initiative

Dr Elvidge works within the CDI, which was founded in 2020, to drive research and advocacy to disrupt the impact of childhood dementia on children and their families. She will discuss the process behind this advocacy and the impacts it can have.

Wednesday 30<sup>th</sup> June

12:00pm-1:00pm (Adelaide Time)
