

Presidents Report

When I assumed my term as the 2014 ASMR President, I outlined a vision for the society to drive change and support for the health and medical research sector. With the amazing support of the ASMR executive office, the ASMR Directors, the ASMR past Presidents, and the ASMR State committees, I believe we have gone a long way to achieving this vision.

In 2014, the ASMR strove to:

Build connections between the research community and Government

This year saw unprecedented engagement between the medical researchers and Government. 2014 began with meetings between myself and key Government stakeholders in health and medical research. In the lead up to the 2014 Federal Budget, I was fortunate to make presentations to senior members of the Finance and Treasury departments. These critical meetings communicated and reinforced ASMR's evidence based case that the ASMR has built over several years to lift investment into the NHMRC to 3% of the total health expenditure in Australia. These presentations were well received, and I can assure the ASMR members that Government certainly recognises the health and economic value of medical research.

In the May 2014 Federal Budget, the Treasurer, Minister Joe Hockey, announced Government's plan to create a Medical Research Future Fund, which upon reaching maturity, would return \$1 billion of additional investment to health and medical research. Whilst this is not ASMR's proposed investment plan, it signals Government's recognition of the value of Australian medical research. ASMR continues to advocate to Government to ensure that Australia's future health needs are met by a well-resourced, securely funded research ecosystem.

The first week of June saw one of the most successful ASMR Medical Research Weeks® in recent memory. I was fortunate to travel the country with the 2014 ASMR Medallist, Professor David Sinclair, whose cutting edge research into the molecular mechanisms of ageing will transform our future health and longevity. Sold out gala dinners around the country afforded researchers the opportunity to

sit and engage with politicians about their research and why Government investment in medical research represents value for money. I was particularly pleased to oversee the comprehensive program of community outreach events. The State committees did a fabulous job in organising, what is one of the most important aspects of ASMR MRW®. Thousands of members of the Australian public attended events around the country, including public information booths, Dinner with a Scientist and Science in the Cinema. Community support is critical to drive Government engagement, and is a powerful tool for ASMR's advocacy work.

ASMR is committed to advocating for the health of all Australians. The unacceptable health outcomes facing Indigenous Australians remains our country's shame and the ASMR is committed to playing a significant role in taking action on this critical discrepancy. This year, ASMR made a submission to the House of Representatives: Standing Committee on Indigenous Affairs, Inquiry into the harmful use of alcohol in Aboriginal and Torres Strait Islander communities (available in full on the ASMR website). In addition, the ASMR has once again organised an Indigenous Health Forum: Healthy Start, Strong Family, which focuses on the impact of harmful lifestyles in early pregnancy from a legal perspective. This forum will once again generate a set of powerful and realistic recommendations that ASMR will present to Government.

Gathering evidence to support the health and economic benefit of health and medical research

The announcement of the MRFF was met with excitement and uncertainty by the medical research community. Excitement at the prospect of a significant injection of funding for medical research; uncertainty about the mechanism of funding

and the impact that an MRFF could have. In September, the ASMR commissioned Deloitte Access Economics to undertake a comprehensive report extrapolating the health and economic returns that could be generated by the MRFF. The report highlighted two major findings:

- 1. Consistent with past ASMR commissioned reports, lifting the investment into medical research by an MRFF will generate significant health and economic returns.** The benefit-cost ratio (BCR), considering only NHMRC expenditure, is 3.19. The BCR, considering MRFF funding in addition to current NHMRC expenditure, is 3.39. Every \$1 from the MRFF invested in medical research returns \$3.39 in future health and productivity gains
- 2. For the first time, this report demonstrates the health and economic impact that delaying investment into medical research can have.** A delay by 5 or 10 years in the MRFF reaching its targets would reduce health and productivity benefits by \$11.3billion (5 year delay) and \$12.2billion (10 year delay)

The full report is available on the ASMR website. These critical data will be used in our communication with Government, health and medical research stakeholders to advocate for best research investment model that will benefit both research and the community.

Actively developing research leaders

ASMR is committed to providing ongoing professional development for Australia's up and coming medical researchers. In 2014, the ASMR facilitated a comprehensive program of professional development events. During ASMR MRW®, professional networking events and state scientific meetings were held in nearly every capital city and territory around the country, giving young researchers the opportunity to present themselves and their work in an environment conducive to constructive feedback and development. I am excited to see ASMR's professional development day in November evolve to be comprised of two unique, cutting edge workshops that will equip researchers with a new set of tools to aid their career progression. I look forward to seeing ASMR's continuing evolution of professional development services.

Research outcomes are maximised through a collaborative, innovative environment, facilitated by ASMR

This year, the ASMR has embarked on an ambitious goal, being one of the driving organisations behind

the first trans-disciplinary themed Australian Health and Medical Research Congress. As we move towards an ever more competitive research environment, we must broaden our research collaborations beyond just the traditional approach of cross-disciplinary collaboration. Trans-disciplinary research, the concept of bringing together all the relevant stakeholders, whether they are biologists, physicists, policy makers and even architects, is fast shaping as the future of how medical research will address the big health questions facing our world. The AHMRC program was an outstanding development opportunity for Australian researchers to remain at the cutting edge of an increasingly competitive research environment.

This year has been dynamic, exciting and sometimes turbulent, but I have enjoyed every minute, representing a society and a sector that is doing so much good for the community at large. The ASMR enters its 54th year with a proud history of advocacy, done with integrity, diligence and above all passion. The ASMR has always been, and will always remain bipartisan; however, the society will always, without fear nor favour, stand to its principles and mission, to support the best medical research, which underpins the best health outcomes for all Australians.

To the ASMR Directors, and in particular my President-elect, Dr Phoebe Phillips, thank you for all your support and hard-work this year. To the past ASMR Presidents, thank you for your sage advice and guidance throughout the year. To the State committees, thank you for your enthusiasm, passion and dedication. To Cath West and Priscilla Diment, you are both amazing women who quietly go above and beyond for the society and the sector. It has been an honour to serve.

I finish with quote by Sir Winston Churchill that neatly encapsulates the ASMR "Courage is what it takes to stand up and speak; courage is also what it takes to sit down and listen."

Dr Roger Yazbek
ASMR President 2014

AGENDA— ANNUAL GENERAL MEETING

The Australian Society for Medical Research Melbourne Convention and Exhibition Centre, Melbourne Victoria

Tuesday November 18th 2014, commencing at 12:00pm

- Item 1** Welcome and Apologies – Dr Roger Yazbek
Item 2 Confirmation of Minutes of 19/11/13 – Dr Roger Yazbek
Item 3 President’s Report – Dr Roger Yazbek
Item 4 Treasurer’s Report – Dr Phoebe Phillips
Item 5 ASMR Research Fund – Dr Phoebe Phillips
i) Award Winners 2014
ii) Award Winner (D) 2013 - Ms Hannah Yong
iii) Award Winner (I) 2013 - Dr Xiaowei Wang
Item 6 Sub-committee Reports
a) Research Careers – Dr Luke Hesson
b) Membership – Drs Georgio and Kaituù-Lino
c) Newsletter – Drs Georgio and Kaituù-Lino
d) ASMR MRW ® - Dr Steven Polyak
e) Media - Dr Daniel Johnstone
f) State Reports – Dr Roger Yazbek
g) NSC 2014 – Drs Meachem and Lynch
h) AHMRC 2014 - Dr Tina Bianco-Miotto
Item 7 General Business – Dr Roger Yazbek
Membership matter
Item 8 Directors and Office Bearers 2015- Dr Phoebe Phillips

Dr Daniel Johnstone, Honorary Secretary

Board Meetings

Attendance by Directors

November 16, 2013

2013 Board Meeting -
Prof N Rogers
Dr Roger Yazbek
Dr Rachel Burt
Dr Amanda Philp
Dr Steven Polyak
Dr Daniel Johnstone
Dr Phoebe Phillips
Dr Rosemary Keogh
A/Prof Kristen Nowak
Prof J Forbes (from 11:30am),
2014 Board Meeting -
Dr Roger Yazbek
Dr Phoebe Phillips
Dr Daniel Johnstone
Dr Steven Polyak
Dr Kristen Georgiou
Dr Brigid Lynch Lynch
Prof J Forbres
Apologies: Drs Bianco Miotto,
Hesson, Meachem and
Kaituù-Lino

March 19, 2014

ASMR RESEARCH AWARD

WINNERS

| | |
|------|---|
| 2000 | Miss Raelene Lim |
| 2001 | Dr Patricia Mote |
| 2002 | Ms Vanessa Murphy |
| 2003 | Ms Mary Kavurma |
| 2004 | Dr Richard Allen |
| 2005 | Dr Gabrielle Todd |
| 2006 | Ms E Sutcliffe (D) Dr Elke Hacker (I) |
| 2007 | Ms A Lehane (D) Dr Di Yu (I) |
| 2008 | Mr A Mohamedali (D) Dr Louise Dunn (I) |
| 2009 | Dr D Johnstone (D) Dr Siobhan Shabrun (I) |
| 2010 | Dr Ivan Ka Ho Poon (I) Dr Justin Lees (D) |
| 2011 | Dr Alex Umbers (I) Ms Shervi Lie (D) |
| 2012 | Ms Emma Ramsay (I) Ms Kimberley Wang (D) |
| 2013 | Dr Xiaowei Wang (I) Ms Hannah Yong (D) |
| 2014 | Miss Stephanie Tan (I) Dr Melissa Cantley(D) |

MINUTES OF THE ANNUAL GENERAL MEETING OF THE AUSTRALIAN SOCIETY FOR MEDICAL RESEARCH HELD AT THE BALLARAT LODGE, BALLARAT VICTORIA ON TUESDAY THE 19TH NOVEMBER 2013, COMMENCING AT 12 MIDDAY

Item 1 Welcome and

Apologies, *Prof Naomi Rogers*

In the presence of the required quorum of members, in person and by proxy, Prof Rogers opened the meeting, welcoming all present and tabling apologies from Mrs Ruth Lilian, A/Prof Peter O'Loughlin, Prof Nick Hunt, Prof Matthew Gillespie, Dr Tina Bianco-Miotto, Dr Brigid Lynch, Dr Luke Hesson and Dr Tu'uhevaha Kaitu'u-Lino.

Item 2 Confirmation of the Minutes of 26/11/12,

Prof Naomi Rogers

Dr Rosemary Keogh moved that the Minutes of the AGM of November 26, 2012, be accepted as a true and accurate reflection of that meeting; seconded by A/Prof Kristen Nowak.

Item 3 President's Report,

Prof Naomi Rogers

Referring to her report tabled in the Annual Report of the Society, Prof Rogers highlighted some points in that report advising that she has been privileged to serve the society and the sector as President of ASMR in 2013. ASMR's success is due to the hard work and passion of the directors, staff, state committees and the membership.

This year there has been a continuation of the trend to greater numbers of grant applications and for larger amounts of funding. The 16.1% success rate for NHMRC project grants in 2013 is an alarming number and without additional investment into the sector and NHMRC, success rates will continue to decline. In addition, Australia faces escalating health costs with currently more than one quarter of GDP spent on health and aged care, predicted to rise to one half of GDP over the next forty years. This level of expense is unsustainable and will have a direct and negative effect on healthcare for all Australians. Deloitte Access Economics reports commissioned by ASMR clearly show that investment into the health and medical research sector can have a significant impact in attenuating these

rising health costs as well as building a sustainable research sector bringing discoveries from the bench to the bedside. ASMR is advocating for investment into NHMRC to be increased to 3% of the federal health portfolio budget. We are seeking bipartisan government support for this investment to ensure the health and wellbeing of generations to come.

Over the past year, ASMR has continued its role of public, political and scientific advocacy with ASMR directors bringing the health and medical research message to politicians, the research community and the general public. The success of our advocacy campaign also relies on the enthusiasm and support of the membership. We need all members to be part of the campaign to inform and educate government of the critical importance and value of health and medical research and also to take this message to the general community.

In the past 12 to 24 months ASMR has continued to work with other organisations in our sector including AAMRI and the Research Alliance, coming together to develop a more united voice in advocating for sustained funding.

Prof Rogers expressed her pride in some of the significant achievements of 2013 including the ASMR Newsletter and its evolution into a thought provoking journal with topical and thoughtful articles, the increased ASMR presence and reach through social and public media, development of clearer sponsorship pathways, the success of ASMR MRW® and expanded regional events. She spoke also of the outstanding scientific program of the NSC 2013 and went on to speak of the successful November 2012 AHMRC and NSC held for the first time in Adelaide. The spirit of Congress is to create shared sessions to promote cross collaboration and this tradition will continue with AHMRC 2014 to be held in Melbourne with a new transdisciplinary/team science approach and a theme of "Chronic Diseases". Transdisciplinary/team science is a timely paradigm to move forward in delivering

better health outcomes to current and future generations but it does raise questions around review of transdisciplinary research grants and workforce training.

ASMR is continuing its support of Indigenous Health with the report and recommendations from the 2012 Indigenous Health Forum, "Better Health Outcomes for Mums and Bubs" presented to government and the Indigenous Health Forum on Healthy Ageing to be held on Wednesday.

All directors should be proud of what they have achieved this year. Directors are in the privileged position of providing a voice for the sector. The hard work of many boards of directors plays a role in the achievements of the society with our campaigns and activities having been shaped, developed and nurtured across a number of years by many hands. ASMR Directors in 2014 and into the future are charged with continuing the work of the Society and their success will build upon the dedication of past boards including this one.

Prof Rogers thanked the members, state committees, Senior Exec Officer Catherine West, and Administrative Assistant Priscilla Diment for their hard work and time. She thanked Dr Maree Overall and the staff at ASN as well the directors who supported her tirelessly in 2013.

In closing her report, Prof Rogers particularly thanked long serving, retiring Directors, Dr Rosemary Keogh, A/Prof Kristen Nowak, Dr Rachel Burt and Dr Amanda Philp. Prof Rogers expressed her interest in watching the evolution of health and medical research in Australia and ASMR's role in that process to ensure best health outcomes for all Australians.

Prof Rogers extended her best wishes to the incoming President Dr Roger Yazbek and the 2014 Board in continuing ASMR's mission of public, political and scientific advocacy in

AGM Minutes Continued

fostering excellence in health and medical research in Australia.

Item 4 Treasurer's Report – *A/P Kristen Nowak*

A/Prof Nowak referred to the Financial Statements prepared by St Clair partners and included in the Annual Report. She advised there was an Operating Surplus of \$53784 for the year and that the Society has Accumulated Assets of \$1.2M with Total Equity of \$996,936. Prof Nowak moved that the Financial Statements be accepted as a true and accurate reflection of the financial accounts for the Financial Year ended June 30, 2013; accepted unanimously by a show of hands.

Item 5 ASMR Research Fund - *A/P Kristen Nowak*

A/Prof Nowak advised that there are two Awards annually for member, \$5000 for the international award and \$2000 for a domestic award. She referred again to the Financial Statements in the Annual Report where the Research Fund shows a loss of \$2,196 which is a reflection of reduced donations.

A/Prof Nowak thanked those members who have supported the Research Fund
Award Winners 2013

Winner of the International Award is Dr Xiaowei Wang from the Baker IDI Heart and Diabetes Institute who will visit the laboratory of Dr Ingo Ahrens at the Department of Cardiology and Angiology at the University Heart Centre, Freiburg, Germany.
Winner of the 2013 Domestic Award is Ms Hannah Yong from Royal Women's Hospital Melbourne, who will visit the laboratory of Prof Eric Moses from the University of Western Australia.

ii) **Award Winner (D) 2012 - *Kimberley Wang***

Kimberley Wang provided a presentation on her work with the Victor Chang Cardiac Research Institute on "The role of microRNA signalling in cardiovascular adaptations to low birth weight" and concluded by thanking ASMR for the Award.

Award Winner (I) 2012 *Emma Ramsay*

Emma Ramsay reported on her work at the Karolinska Institute in Stockholm with Professor Matthias Lohr on "Investigation of intra-tumour delivery of a yGT-activated drug using a 3D culture model of human pancreatic adenocarcinoma". She thanked ASMR for the opportunity.

Item 6 Sub-committee Reports

Research Careers – *Dr R Keogh*

Dr Keogh reported that ASMR conducts a Professional Development Program for early career researchers and an online Mentoring Scheme. This year there is a push into regional areas with a Professional Development Day to be held in Newcastle next week. The Society, as a result of the NHMRC Symposium "Evolutions in Peer Review" has also prepared a submission on Improving Peer Review. In response to questions from the floor regarding careers, the fellowship scheme and difficulties encountered by researchers in maintaining a career, Dr Keogh deferred to Prof Rogers who responded that ASMR is speaking to all sides of government advocating for increased funding into NHMRC. There is a lot of discussion around this particular problem. She advised that ASMR will continue to keep this matter on the agenda with government and with NHMRC. ASMR has been and will continue to advocate for the workforce on a bipartisan basis. Retiring Director Dr Keogh thanked Cath West, Priscilla Diment and Maree Overall together with all directors she has served with over the last few years.

Membership – *Prof J Forbes*

Professor Forbes advised that ASMR currently has strong individual and affiliate organisation member numbers. However, it is the goal of the society to bring all Australian health and medical researchers into the ASMR fold to improve the political base. The Society currently has 1700 Individual members.

Newsletter – *Dr Steven Polyak*

Dr Polyak advised that there are three editions of the Newsletter each year. The Newsletter is a

vehicle for information on topics of importance to the sector. He thanked all contributors and advised that the Editor is always looking for new ideas. The Newsletter now has links with our online social media platforms. He thanked Steven O'Connor from Artifishal Studios for his work on the Newsletter and Priscilla Diment for coordinating distribution.

ASMR MRW® - *Dr A Philp*

ASMR MRW® takes place annually in the first full week of June. 2012 was a successful year with events taking place in all states. Dr Philp thanked the hardworking state committees, Maree Overall and staff at ASN together with Cath West and Priscilla Diment.

Media - *Dr Roger Yazbek*

Dr Yazbek reported that the focus of most media occurred during ASMR MRW® where the health and medical research message reached over 3 million Australians. We will continue throughout the year, including currently at the NSC, broadcasting the outcomes of research activity in this country.

State Reports –

Prof Naomi Rogers

Prof Rogers thanked again the dedicated and hard working state committees who make ASMR MRW® happen. There are ASMR committees in Perth, Adelaide, Melbourne, Hobart/Launceston, Sydney, Newcastle, Brisbane and ACT and as President, Prof Rogers expressed here delight in meeting many of the committees during the ASMR Medalist tour.

Regional Events – *Dr P Phillips*

Dr Phillips advised that the Indigenous Health Forum will be held on Wednesday with great involvement from the local community. The Forum will be looking at Indigenous Ageing.

NSC 2013 – *A/P Kristen Nowak*

A/Prof Nowak advised that she took on the job from Dr Juliet Taylor, thanking her for her support and that of the program committee. She thanked the attendees and ASN Events.

AHMRC 2014 - *Dr Bianco-Miotto*

Dr Bianco-Miotto is an apology to the meeting due to illness. Dr Rosemary Keogh presented her report.

AGM Minutes Continued

The bi-annual AHMRC was established to bring together individuals from diverse research areas to foster the sharing of ideas and research findings in a multidisciplinary and crossdisciplinary meeting.

In 2014, Congress will be held at the Melbourne Convention and Exhibition Centre from the 16-19th of November and for the first time Congress will have a theme which is 'Transdisciplinary Approaches to Chronic Diseases'. Please see the YouTube video on the AHMRC website to hear the Congress Program Convenor A/Prof Gilda Tachedjian explain the vision of the 2014 Congress. The website also lists the societies that will be part of Congress and we are excited at how the program is coming together. We have recently confirmed two of our three plenary speakers. The first is Professor Molly Stevens from the Imperial College London. In 2010 she was recognised by The Times as one of the top ten scientists under the age of 40. Her transdisciplinary research is in regenerative medicine and she has developed novel approaches in tissue engineering. She also works in the field of nanotechnology to create new dynamic nano-materials, biosensors and drug delivery systems. The second plenary speaker is Professor Frank Hu, Director of the Harvard Transdisciplinary Research in Energetics and Cancer Center. Prof Hu utilises transdisciplinary approaches to investigate complex interactions among nutrition, biomarkers, and genetic factors in the development of diabetes and cardiovascular complications.

Planning for Congress is well underway so please keep up to date by visiting the Congress website or following us on twitterAHMRC2014. Dr Keogh encouraged members to be part of this bold, innovative adventure, either as a society, sponsor or delegate so together we can develop a truly transdisciplinary program that fosters communication and collaboration.

Item 7 General Business –
Professor Naomi Rogers

Prof Rogers thanked again retiring directors A/Prof Kristen Nowak, Dr Rachel Burt, Dr Amanda Philp and Dr Rosemary Keogh advising that there is an ASMR tradition for retiring directors to receive their ASMR badges at the AGM. She reported that between them, retiring directors have given 20 years of service to the Society on the Board and committees in WA, SA, NSW and Victoria.

Prof Rogers gave a brief summary of the service of retiring directors as she presented their badges -

Dr Rosemary Keogh joined the Society in 1998 and the Board in 2007. Her portfolios have included ASMR MRW®, Research Careers, State Committees and AHMRC.

A/P Kristen Nowak joined ASMR in 2006 and the Board in 2007. Her portfolios have been, Media, Hon Treasurer, NSC, ASMR MRW® and Research Careers.

Dr Rachel Burt joined ASMR in 2008 serving on the Vic Committee and joining the Board in 2009. Her portfolios have been Sponsorship, Honorary Secretary, Membership and ASMR MRW®.

Dr Amanda Philp joined ASMR in 1998, the NSW Committee in 2007 and the Board in 2011. Her portfolios have been ASMR MRW®, Conference Participation, and Assisting Professional Development.

Prof Rogers thanked again retiring directors and there being no further business, Prof Rogers handed the conduct of the Meeting and the reins of ASMR to incoming President, Dr Roger Yazbek

Item 8 Directors and Office Bearers 2014 - Dr Roger Yazbek

Dr Yazbek thanked and congratulated Professor Rogers on her Presidency, presenting her with the badge of past president, he also thanked retiring directors for their contributions to the Society.

COUNCIL REPORT FOR THE YEAR ENDED 30TH JUNE 2014

The directors present the accounts of the Society for the year ended 30th June 2014.

1. The Directors of the Society at the date of this report are:

| | |
|-------------------------------|---|
| President | Dr Roger Yazbek |
| President-Elect/Hon Treasurer | Dr Phoebe Phillips |
| Exe Director/Hon Sec | Dr Daniel Johnstone |
| Exec Director/ | Dr Steven Polyak |
| Directors | Dr Tina Bianco-Miotto |
| | Dr Brigid Lynch |
| | Dr Sarah Meachem |
| | Dr Luke Hesson |
| | Dr Kristen Georgiou |
| | Dr Tu'uhevaha Kaitu'u-Lino |
| | Dr Joanne Bowen |
| | Professor Josephine Forbes (resigned January, 2014) |
| Snr Executive Officer | Catherine West |

2. The principal activities of the Society during the course of the financial year were the promotion of interest and support for medical research in Australia. There were no significant changes in the nature of those activities during that period.
3. During the period the Society's activities resulted in a consolidated operating profit in the amount of \$52,245. At the end of the financial year the Society had net assets of \$1,049,181. There were no significant changes in the state of affairs of the Society during the financial period other than as mentioned in this report. The Society's accounting policy is on an accruals basis. Accordingly the comparative figures reflect the accruals basis of accounting. During the year, events management was undertaken by ASN Events Pty Limited, on behalf of the Society. On an accruals basis, they have reported net assets of \$36,964, a turnover of \$138,376 and a net loss of \$76,679, after taking into consideration other interest income in the sum of \$2,434. This year, the Australian Health & Medical Research Congress Unit Trust reported net assets of \$197,442, a nil turnover and a net profit of \$3,083, after taking into consideration other interest income in the sum of \$3,849. Since the end of the financial year no matter of circumstance has arisen which has significantly affected, or may significantly affect the operations of the Society, the results of those operations or the state of affairs of the Society in any subsequent financial years.
4. The Society's branch accounting is undertaken by the National Office.
5. The financial report is a general purpose financial report that has been prepared in accordance with Accounting Standards, Australian Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001 (as amended). The Australian Society for Medical Research complies with all Australian equivalents to International Financial Reporting Standards (IFRS) in their entirety.

6. Since the date of incorporation, no office bearer has received or become entitled to receive a benefit (other than a benefit included in the aggregate amount of emoluments or due and receivable by office bearers shown in the accounts or the fixed salary of a full-time employee of the Society) by reason of the contract made by the Society with the office bearer or with a firm of which he/she is a member, or with a company in which he/she has a substantial financial interest.

This report is made in accordance with a resolution of the Council.

INDEPENDENT AUDIT REPORT

To the Council of THE AUSTRALIAN SOCIETY FOR MEDICAL RESEARCH A.B.N. 18 000 599 235

Scope

We have audited the financial report of The Australian Society for Medical Research for the year ending 30th June, 2014. The board of Directors are responsible for the financial report. We have conducted an independent audit of the financial report in order to express an opinion on it to the board of Directors.

Our audit has been conducted in accordance with Australian Auditing Standards to provide reasonable assurance whether the financial report is free of material misstatement. Our procedures included examination, on test basis, of evidence supporting the amount and other disclosures in the financial report, and the evaluation of accounting policies and significant accounting estimates. These procedures have been undertaken to form an opinion whether, in all material respects, the financial report is presented fairly in accordance with Accounting Standards and other mandatory professional reporting requirements so as to present a view which is consistent with our understanding of the financial position of The Australian Society for Medical Research and the results of its operations and its cash flows. The audit opinion expressed in this report has been formed on the above basis.

Qualification

The Society has determined that it is impractical to establish control over the collection of sponsorships and donations, prior to entry into its financial records. Accordingly, as the evidence available to us regarding revenue from these sources was limited, our audit procedures with respect to sponsorships and donations pledged had to be restricted to amounts recorded in the financial records.

Qualified Audit opinion

In our opinion except for the effects on the financial report of such adjustments, if any, as might have been required had the limitation on our audit procedures referred to in the qualification paragraph not existed, the financial report presents fairly in accordance with applicable Accounting Standards and other mandatory professional reporting requirements, the financial position of The Australian Society for Medical Research as at 30 June, 2014 and the results of its operations and its cash flows for the year then ended.

AUDITORS' INDEPENDENT DECLARATION

To the Council of THE AUSTRALIAN SOCIETY FOR MEDICAL RESEARCH A.B.N. 18 000 599 235

In relation to my audit of the financial report of The Australian Society for Medical Research for the year ended 30th June, 2014, I declare that, to the best of my knowledge and belief, that there have been:

- (a) no contraventions of the auditor independence requirements of the Corporations Act 2001 (as amended) in relation to the audit; and
- (b) no contravention of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of The Australian Society for Medical Research during the period 1st July 2013 to 30th June, 2014.

THE AUSTRALIAN SOCIETY FOR MEDICAL RESEARCH A.B.N. 18 000 599 235

DIRECTORS' DECLARATION

In accordance with resolution of the Directors of THE AUSTRALIAN SOCIETY FOR MEDICAL RESEARCH, we state that in the opinion of the Directors;

- (a) the Consolidated Profit and Loss Statement and Other Profit and Loss Statements of the Australian Society for Medical Research are drawn up so as to give a true and fair view of the results of the Society for the year ended 30th June, 2014.
- (b) the Consolidated Balance Sheet of the Australian Society for Medical Research are drawn up so as to give a true and fair view of the state of affairs of the Society as at 30th June, 2014; and
- (c) there are reasonable grounds to believe that the Australian Society for Medical Research will be able to pay its debts as and when they fall due.

In the opinion of the Directors, the Society is not a reporting entity and the accounts of the Society have been made out as a General Purpose Financial Report in accordance with the policies set out in Note 1.

This Statement is made in accordance with the resolution of the Board of Directors and is signed for and on behalf of the directors by:

ON BEHALF OF THE BOARD

Dr Roger Yazbek
President/Director

Dr Phoebe Phillips
President-Elect

Dated this 6th day of November 2014 at Sydney, New South Wales.

THE AUSTRALIAN SOCIETY FOR MEDICAL RESEARCH

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30TH JUNE, 2014

Note 1: Statement of Significant Accounting Policies

The financial report is a general purpose financial report that has been prepared in accordance with Accounting Standards (AASBs), Australian Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001 (as amended). The following is a summary of the material accounting policies adopted by the economic entity in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

(A) Going Concern

The Society's financial statements have been prepared on a going concern basis. At 30th June, 2014, the Society had an excess of current assets over current liabilities. Cash reserves were sufficient to support the Societies operations.

(B) Basis of Preparation

Australian Equivalents to International Financial Reporting Standards

The Australian Society of Medical Research has prepared financial statements in accordance with the Australian equivalents to International Financial Reporting Standards (IFRS). The accounting policies set out below have been consistently applied to all years presented. The entities have however elected to adopt exemptions available under AASB 1 relating to AASB 132: Financial Instruments: Disclosure and Presentation, and AASB 139: Financial Instruments: Recognition and Measurement.

Reporting Basis and Conventions

The financial report has been prepared on an accruals basis and is based on historical costs modified by the revaluation of selected non-current assets, and financial assets and financial liabilities for which the fair value basis of accounting has been applied, if applicable.

Functional and Presentation Currency

The Society's financial statements are presented in Australian Dollars.

(C) Accounting Policies

Income tax

As the Society is a charitable institution in terms of subsection 50-5 of the Income Tax Assessment Act, 1997, as amended, it is exempt from paying income tax.

Property, Plant and Equipment

The Society purchased office equipment amounting to \$3,620 during the year. Office equipment is carried at cost value less, where applicable, any accumulated depreciation and impairment losses. The carrying amount of office equipment is reviewed annually to ensure it is not in excess of the recoverable amount from those assets. Subsequent costs are included in the asset's carrying amount recognised as a separate asset, as appropriate, only when it is probable that the future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred. The Australian Society for Medical Research is a non profit organisation and there are no changes to its current disclosure requirements under AASB 116 para Aus 77.1.

Depreciation

Depreciation is recognised in the profit and loss on a diminishing basis over the estimated useful life of each asset. The depreciation rate for the current 2014 year and 2013 comparative year are as follows:-

Depreciation Rate

| | |
|------------------|-----------|
| Office Equipment | 20% - 40% |
|------------------|-----------|

Impairment of Assets

At each reporting date, the directors review the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the assets fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the assets carrying value over its recoverable amount is expensed to the income statement. Where it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs.

Investments in Associates

Any Investments in associate companies are recognised in the financial statements by applying the equity method of accounting. The equity method of accounting recognises the company's share of post-acquisition reserves of its associates. The company's interests in joint venture entities are brought to account using the cost method.

Members Liability

The Society is limited by guarantee. Every member of the Society undertakes to contribute to the assets of the Society in the event of the same being wound up during the time that he or she is a member or within one year afterwards for payment of the debts and liabilities of the Society contracted before the time at which he or she ceases to be a member and of the costs, charges and expenses of winding up the same and for the adjustment of the rights of the contributors amongst themselves such amount as may be required not exceeding the sum of \$20.

THE AUSTRALIAN SOCIETY FOR MEDICAL RESEARCH

NOTES TO THE FINANCIAL STATEMENTS - FOR THE YEAR ENDED 30TH JUNE, 2014

Sponsorship

Sponsorship revenue is recognised at the time the pledge is made.

Provisions

Provisions are recognised when The Australian Society of Medical Research has a legal or constructive obligation, as a result of past events, for which it is probable that the outflow of economic benefit will result and that the outflow can be measured reliably.

Cash and Cash Equivalents

Cash and Cash Equivalents includes cash on hand, deposits held at call with banks or financial institutions, other short term highly liquid investments with original maturities of twelve months or less, and bank overdrafts. Bank overdrafts are shown within short term borrowings in current liabilities on the balance sheet.

Revenue

Interest revenue is recognised on a proportional basis taking in to account the interest rates applicable to the financial assets. All revenue is stated net of the amount of goods and services tax (GST).

Goods and Service Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST. Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

Comparative Figures

Where required by Accounting Standards comparative figures have been adjusted to conform with changes in presentation for the current financial year.

Critical accounting estimates and judgments

The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and internally.

Key estimates - Impairment

The directors assess impairment at each reporting date by evaluating conditions specific to the group that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates.

Agency Agreement

The Society has entered into an Agency Agreement with ASN Pty Ltd. From the Society's perspective, there is no change in the way ASN Pty Ltd manage events for the Society.

Note 2: Revenue

Operating Activities:

| | 2014 | 2013 |
|------------------|----------------|----------------|
| Interest revenue | 10,708 | 17,218 |

| | <u>504,396</u> | <u>513,357</u> |

Interest revenue received by

| | | |
|--|--------|--------|
| The Australian Society for Medical Research from term deposit and bank accounts in its name: | 10,708 | 17,218 |
|--|--------|--------|

Note 3: Auditors' remuneration

| | | |
|--|-------|-------|
| | 9,522 | 9,050 |
|--|-------|-------|

Note 4: Retained Earnings

Nature and purpose of Retained Earnings

The Retained Earnings record the balance of funds in the sum of \$1,049,181 at 30th June, 2014, set aside for the future expansion of the economic entity The Australian Society for Medical Research.

Note: 5 Effect of Changes in Accounting Policy

The entity has adopted the following Accounting Standards:-

- AASB 132: Financial Instruments: Disclosure and Presentation
- AASB 139: Financial Instruments: Recognition and Measurement

AASB 132 relates primarily to increased disclosures required under the standard and does not affect the value of amounts reported in the financial statements.

THE AUSTRALIAN SOCIETY FOR MEDICAL RESEARCH
Consolidated Statement of Cash Flows - For the year ended 30 June, 2014
