**ASMR New South Wales - Annual Scientific Meeting  
Congratulations Winner of the University of Sydney Medal**

**University of Sydney Medal for Excellence in Medical Research.**

Best overall presentation either oral or poster.

**Winner: Kate Quinlan, School of Molecular and Microbial Biosciences,  
University of Sydney.**

The transcriptional co-repressor CtBP binds the oncoprotein ZNF217

Disruptions to the control of gene expression in mammals lead to cancer. This work focuses on a repressor of gene expression and has discovered a link to a protein found in high levels in human breast milk. (Research funded by NHMRC)
